Learn then teach

Those who learn reproduce the teaching as teachers.

Only necessary to be one lesson ahead.

Bible Teaching Program provides a database for those who teach.

What is the teaching purpose?

Three different purposes for teaching

1. To teach - teaching to produce **growth** in believers
2. To teach others to teach - teaching to produce **ministries**
3. To teach others to teach – teaching that **reproduces**

The Bible Teaching Program aims to produce:

Growth,

Ministries,

and

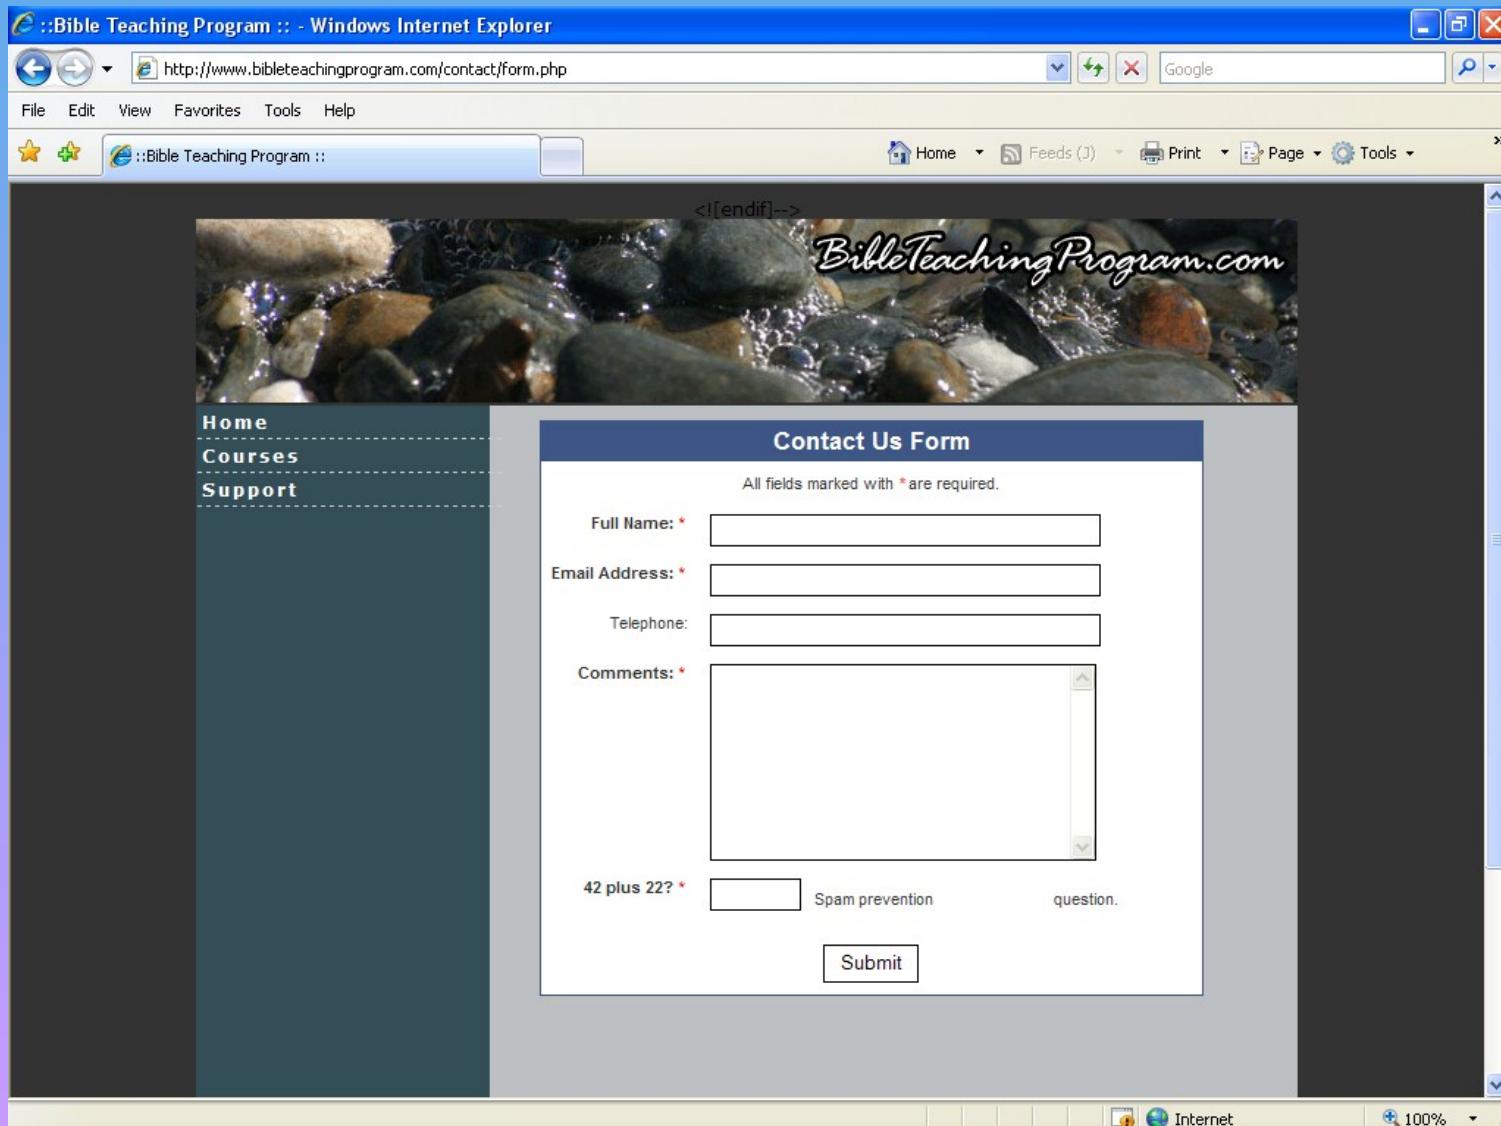

Reproduction

HOW THE BIBLE TEACHING PROGRAM WORKS:

Anyone can teach courses from the Bible Teaching Program.

- 1. Learn the lesson.**
- 2. Gather a small group (can be for an informal coffee morning or cell group).**
- 3. Go through the lesson, try to use personal illustrations.**
- 4. Allow discussion.**
- 5. Arrange time for next lesson.**

Use contact page on www.BibleTeachingProgram.com for help in answering questions, or to let us know what you are doing, or to send prayer requests.

A screenshot of a Windows Internet Explorer window showing the contact form for the Bible Teaching Program. The title bar reads "e ::Bible Teaching Program :: - Windows Internet Explorer". The address bar shows the URL "http://www.bibleteachingprogram.com/contact/form.php". The menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar has icons for Back, Forward, Stop, Refresh, and Search, with "Google" selected in the search field. The main content area features a banner image of rocks and water with the text "BibleTeachingProgram.com". To the left is a sidebar with links to Home, Courses, and Support. The central form is titled "Contact Us Form" and contains fields for Full Name, Email Address, Telephone, and Comments. It also includes a CAPTCHA challenge "42 plus 22? * [input field] Spam prevention question." and a "Submit" button.

STARTING A BIBLE TEACHING PROGRAM

1. The teacher gives the lesson so that those who learn are capable of teaching the lesson.
 2. Those who have heard the lesson then teach their own group - this can be a cell group; a coffee morning Bible Study or even a Church Bible Study.
 3. If they teach their class in the same way then more groups will arise. Use every opportunity to teach others.

LEADERSHIP – those who take responsibility

Every leader becomes responsible for his or her group as they learn to teach others.

'Fellow helpers'

Responsibility means as 'fellow helpers'. There is no place for a hierarchy of leadership as this destroys reproductive teaching.

ENVIRONMENT

**The Bible Teaching Program teaches in a localised environment.
This is the best environment for building church ministries.**

It is a soldier training on the front line.

It is maximising church ministries

**Residential Bible School is not the best environment to build up
church ministries.**

Residential Bible School may be suitable for gaining degrees and it is excellent for building relationships that often last a lifetime.

But it is not suitable for building up church ministries because it removes a person from an effective ministry environment and puts him or her into a society of Christians.

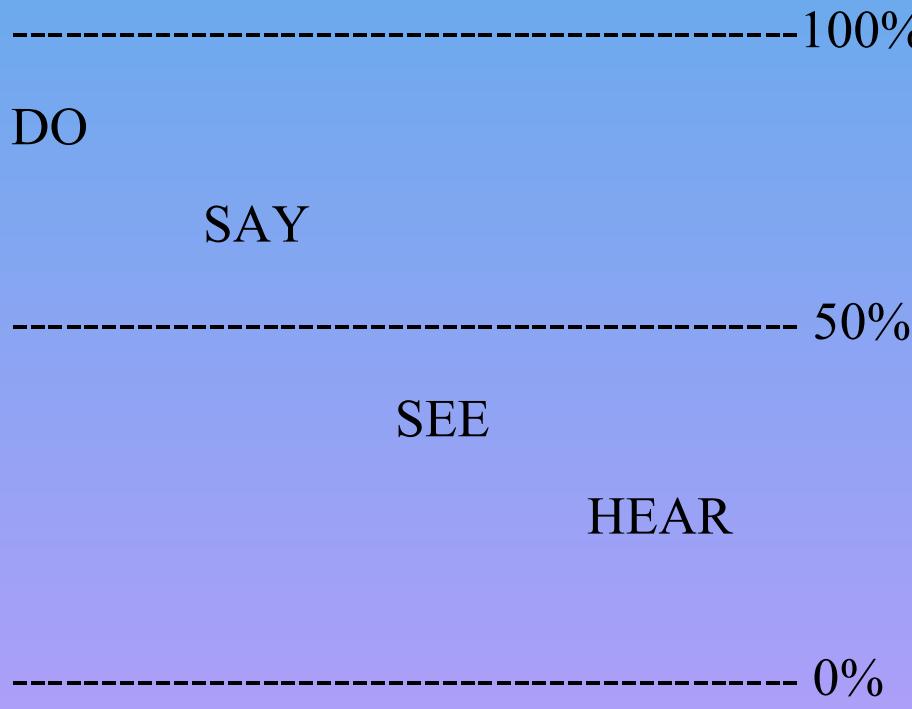

Church ministries need to be built up in 'a localised environment' in which the local church becomes a base for outreach and teaching.

Benefits of the Bible Teaching Program over Full Time Bible School:

1. It allows people to be in work and yet receive training of an equal or higher standard than a Residential Bible School.
2. It gives responsibility of leadership to many who would never be in a leadership position.
3. Leaders stop being 'solo artists' doing all the teaching and become a database providing information for others to teach.
4. It immediately encourages people to teach as it is only necessary for the teacher to be one lesson ahead of his or her class. Many who have attended Full Time Bible Schools are no better equipped to teach when they have finished than they were when they started.
5. It produces growth, ministries and reproduction.

Levels of learning

Teaching for achieving goals

Student learns with participation (High retention)

Doing – Kinesthetic learning

Saying – Expressive learning

Seeing – Visual learning

Hearing – Audio learning

Student learns without participating (Low retention)

The Bible Teaching Program aims for the higher levels of retention.

Teaching others is the most effective way of learning.
